WALTERSCHEID – YOUR PARTNER ON THE TRACTOR REAR

Hydraulic top links with original Walterscheid hook, lower link hooks operated from the driver's seat, hydraulic lateral stabilizers for a safe and comfortable work in difficult terrain – only a few milestones in the world of coupling technology developed by Walterscheid within the last 30 years.

The integration of the former Walterscheid Cramer GmbH is another highlight and a big step forward on our track to bringing more convenience and safety into agricultural business. A wide range of coupling ladders including different inserts made Walterscheid into a full service provider for high quality coupling systems for tractors and self-propelled equipment. Focussing on safe and convenient coupling systems makes us an ideal partner for OEMs and farmers.

Walterscheid – we take agriculture forwards!
